- Web Technologies: HTML5, CSS3, Bootstrap 4
- Tools & Platforms: Jira, npm, RESTful API s, Webpack, Agile, CI/CD

Soft Skills:
- Project Management
- Team Collaboration (Agile)
- Problem-Solving
- Strong Communication

WORK EXPERIENCE

Front-End Web Developer   Oct 2023 – Oct 2024
Bank Respublika, AZ
- Member of a team responsible for migrating payments team projects from PHP to Node.js/React.js;
- Maintaining code integrity, and the development of reusable components;
- Accountable for identifying and troubleshooting issues across backend and frontend aspects;
- Worked within an Agile environment, using Jira for project management, sprint planning, and issue tracking.
- Contributed to the migration of **Cashbox** and **Intrabank Transactions** modules by integrating functionality from PHP to Node.js and React.js, enhancing the application's scalability and maintainability.
- Led the development of **Rates and Control Mechanism (MNBNS)** modules from scratch, transitioning the codebase from PHP to Node.js and React.js, resulting in improved performance and a more streamlined architecture.

Front-End Web Developer (Remote)   Jan 2024 –April 2024
TIM CONSULTING, AZ
- Developed user and admin sections of the Electronic Permits System for the Ministry of Energy using React JS and Tailwind CSS. Implemented functionalities through APIs based on design specifications.

Front-End Web Developer   Sep 2022 – Sep 2023
Buta Tech, AZ
- My role in this company consists of creating new web pages based on design and providing technical support to existing web pages. I redesigned some of the company's web pages with React technology and this led to an improvement in the speed of the pages.
  - Web Page of the Forum to be Organized by the Media Development Agency of the Republic of Azerbaijan (media.gov.az) - globalmediaforum.com
  - A web page where people can post interesting blogs and read and comment on other people's blogs - kaizen.az
  - An interactive web page for people to search for jobs and for companies to post job postings - 1is.az
  - The company's ongoing external Front-end Project for car bidding - avtoherrac.com
  - React JS Project for Dashkasan Iron Ore - ddf.az

Front-End Web Developer At "International Eastern Conference On Human-Computer Interaction"   Jan 2022 – July 2022
Nakhchivan University, AZ
- I worked as an assistant project manager and my responsibilities included managing the project's social media accounts, creating posts, and developing the webpage.
  - iechci.info and hci.az
